On this day in 1961, NASA tested the first Saturn I rocket in Mission Saturn-Apollo I. Let's pray for scientific advancements, especially in areas that make a material difference to ordinary people, such as medical equipment and environmentally friendly alternative energies. <b>7<sup>th</sup> – 9<sup>th</sup> Exec Retreat</b> On this day in 1793, Olympe de Gouges, a politically outspoken French playwright, journalist, and feminist, was guillotined. Let's give thanks for those who fought for a place for women in spheres beyond the home, and for people who lose their lives in the fight for women's voices to be heard. <b>11<sup>th</sup> Exec Meeting; 11<sup>th</sup> to 13<sup>th</sup> Maggie speaker at Mother's Union Conference</b> On this day in 1969, National Education Television in the USA debuted <i>Sesame Street</i>. Let's pray for the education of children around the world – academic learning like literacy and mathematics, but also compassion, conflict resolution, and communication skills. On this day in 1989, the Velvet Revolution began in Czechoslovakia. It was a non-violent student-led demonstration which led to end of over four decades of one-party rule. Let's pray today for activists, demonstrators, and protestors, that social justice and political change will be enacted without violence, and peaceful reform will be carried out wherever needed.</li></ul>
